[redacted] previously reported the Kradschuetzen Kaserne to be used as transient quarters for soldiers being processed for demobilization. According to the present report, 3,000 men, including 200 LVD troops, left the installation and 1,360 men arrived at the installation between 23 October and 2 November 1950. The report supports the belief that processing center in the Kradschuetzen Kaserne is an installation of the Fourth Gds Mecz Army.

(2) According to periodic reports, the units quartered in the installation included elements of the 6th Gds Mecz Div. Previous reports also indicated that elements of both the 16th Gds Mecz Regt and the unidentified Mtrcl Bn, possibly the 95th, of this division were stationed there. The present report indicates that, in late October and early November 1950, components of the 6th Gds Mecz Div returned to the installation, presumably upon completion of field exercises.

(3) Most of the motor vehicle [redacted] belonged to [redacted] the 6th Gds Mecz Div and some to [redacted] headquarters units of the Fourth Gds Mecz Army and the 7th Gds Mecz Div.

(4) [redacted] on 30 March 1950, Gds Senior Lieutenant Konyshin, (fmu), belongs to Unit [redacted] which is the 95th (?) Gds Mtrcl Bn of the 6th Gds Mecz Div. [redacted]

[redacted] both Gds Senior Lieutenant Konyshin belonging to the 95th (?) Gds Mtrcl Bn and the battalion as being stationed in Bad Freienwalde until 3 October 1950.
